

Tidal River Open Space Project TROSP

It started with “They should...” and became “We could...!”

Our Vision

To create an evolving communal gathering space at Tidal River (Wilson's Promontory National Park) connecting the elements: fire, wind, tide and earth in their natural cycles.

A place that excites the senses, creating opportunity for natural and cultural themes that encourages imagination, curiosity, learning and play.

Our Partners

- Parks Victoria
- Foster Community Association Inc
- People and Parks Foundation
- Foundation for Rural & Regional Renewal [FRRR]

- Friends of the Prom
- Foster Community Association
- Local Aboriginal Communities
- Prom Campers Association

- Local & Regional Schools
- South Gippsland Shire Council
- Victorian National Parks Assoc.
- Commandos of the 152nd Battalion

Which became the plan...

February 2011

A New Space for Tidal River

The Tidal River Open Space Project is a community driven project in partnership with Parks Victoria to revitalise the playground area at Tidal River.

Its purpose is to provide an interactive meeting place and playground which invites the visitor to stop and spend time.

The project plan has involved community consultation, development of the site plan and initial fundraising.

If you would like more information or would like to contribute to our new communal gathering and recreation space come to the Visitor Centre, phone 131 963 or visit the web site www.parkweb.vic.gov.au
